Course Structure

Role of Management

Is to ***guide*** organization towards its ***goals*** through its ***resources***

Defining Management

- Process.
 - Knowledge.
 - Individuals.
-
- Management is the ***process*** of reaching organizational ***goals*** by working with and through ***people*** and other organizational ***resources***.

The word “manager” origins

Manager

is a **man** or **woman** who is placed above you to use, abuse, reuse, and/or recycle you until you **age** enough so they put you out to pasture, where there is no grass left anymore ☺

Management Functions

- Planning.
- Organizing.
- Influencing.
- Controlling.

Management Functions - Planning

What to do?

- What tasks to be performed?
- When tasks to be performed?
- How tasks to be performed?

Remarks:

- Focus on attaining goals.
- Getting the right things done.
- Short term & long term Plans.

Common Mistakes:

- Not establishing objectives for all important organizational areas.
- Making plans that are too risky.
- Not exploring enough viable alternatives for reaching objectives.

Management Functions - Organizing

What to do?

- Assign planned tasks to departments?
- Create mechanism to execute tasks?
- Assign given work to right people?

Remarks:

- Individual success → Department.
- Department success → Organization.
- Should be adaptable & flexible.

Common Mistakes:

- Not establishing departments appropriately.
- Not emphasizing coordination of organization members.
- Establishing inappropriate spans of management.

Management Functions – Influencing

(motivating, leading, directing, or actuating)

What to do?

- Guide people activities in an appropriate directions?
- Motivate people (Major part)?

Remarks:

- Concerns with people.
- Focus on increasing productivity.
- Keep in mind long term plans.

Common Mistakes:

- Not taking the time to communicate properly with organization members.
- Establishing improper communication networks.
- Being a manager but not a leader.

Management Functions - Controlling

What to do?

- Measure organization performance?
- Compare to planned standards?
- If needed, apply improving changes?

Remarks:

- Apply measurements verification.
- Consider planned alternative plans.
- Alternative plans effect.

Common Mistakes:

- Not monitoring progress in carrying out plans.
- Not establishing appropriate performance standards.
- Not measuring performance to see where improvements might be made.

Management Functions - Interrelationship

Organizational Resources

- Human.
- Raw materials.
- Assets/Capital.
- Monetary.

Organizational Resources

Managerial Effectiveness

- Refers to management's use of organizational resources in meeting organizational goals.
- The closer an organization comes to achieving its goals, the more effective its managers are considered to be.
- In other words, it is doing the right things.

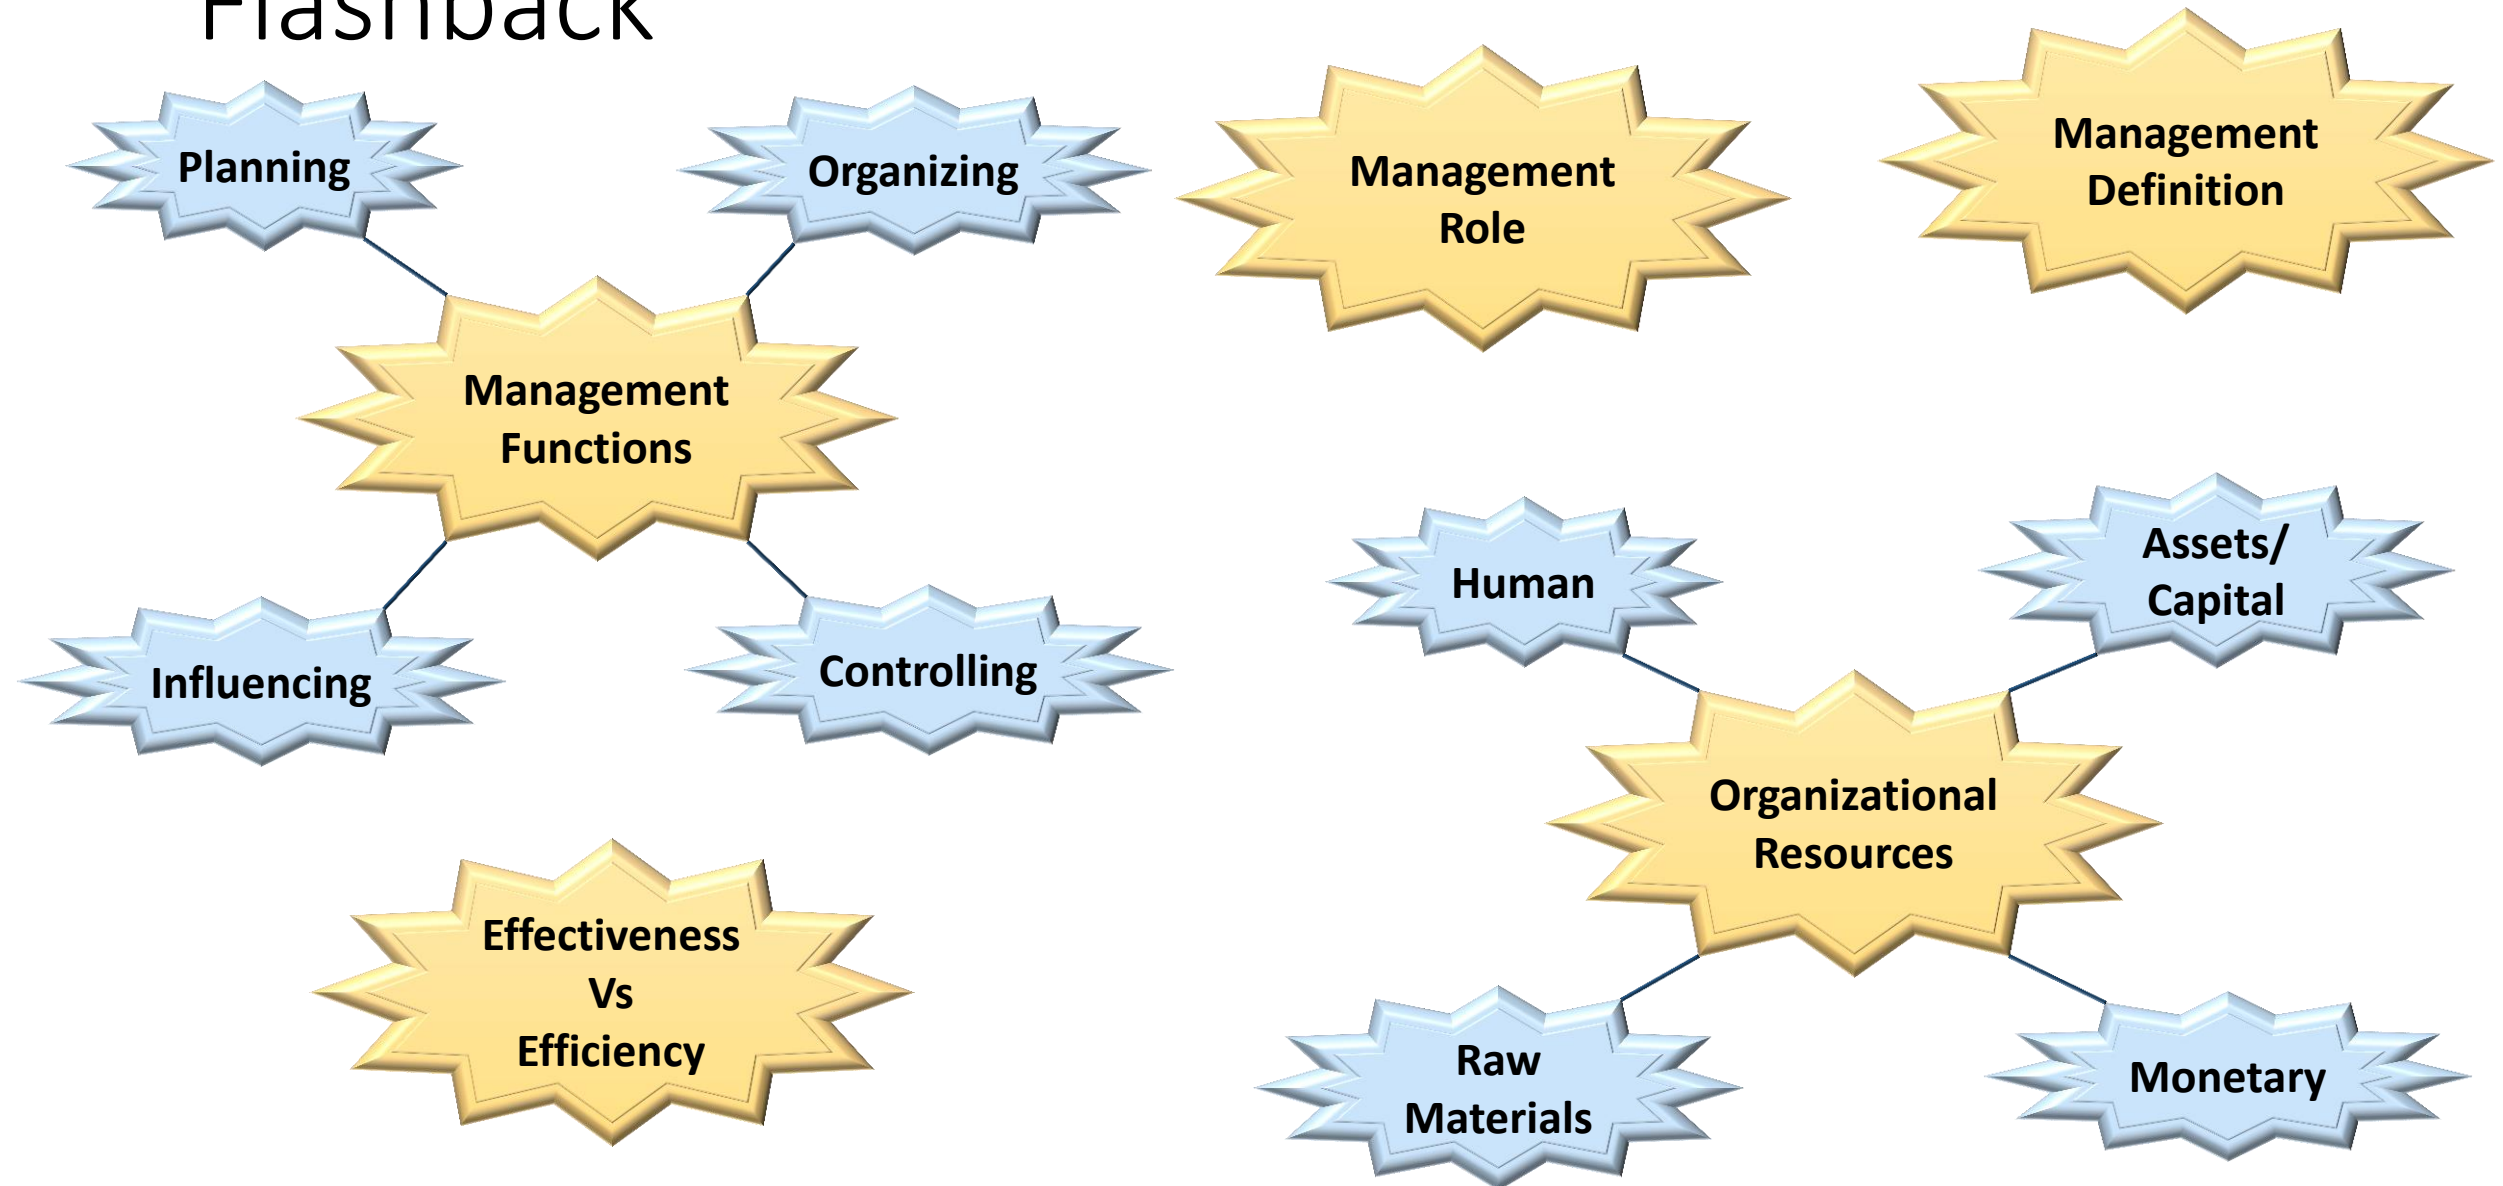

Managerial Efficiency

- Refers to the proportion of total organizational resources that contribute to productivity during the manufacturing process.
- The higher this proportion, the more efficient is the manager.
- In other words, it is doing the things right.

Managerial Effectiveness & Efficiency

Flashback

Objectives

1. *An understanding of basic management skills and their relative importance to managers*
2. *An understanding of the universality of management*
3. *Knowledge of skills that help managers become successful*
4. *Insights concerning what management careers are and how they evolve*

Management Skills

Henri Fayol

- Positive physical and mental qualities.
- Special knowledge related to operation.

Management Skills

B. C. Forbes

Management Skills - Classic view

Management Skills - Classic view

Management Skills - Contemporary view

Expansion for the classic view logically in 2 steps

1. Defining the major activities that managers typically perform.
2. Listing the skills needed to carry out these activities successfully.

Management Skills - Contemporary view

Major Modern Manager Activities

- **Task-related activities:** managing organization tasks.
- **People-related activities:** managing organization people.
- **Change-related activities:** modifying organization components.

Management Skills - Higher Success Chances

Skills for
increasing the
probability of
management
success

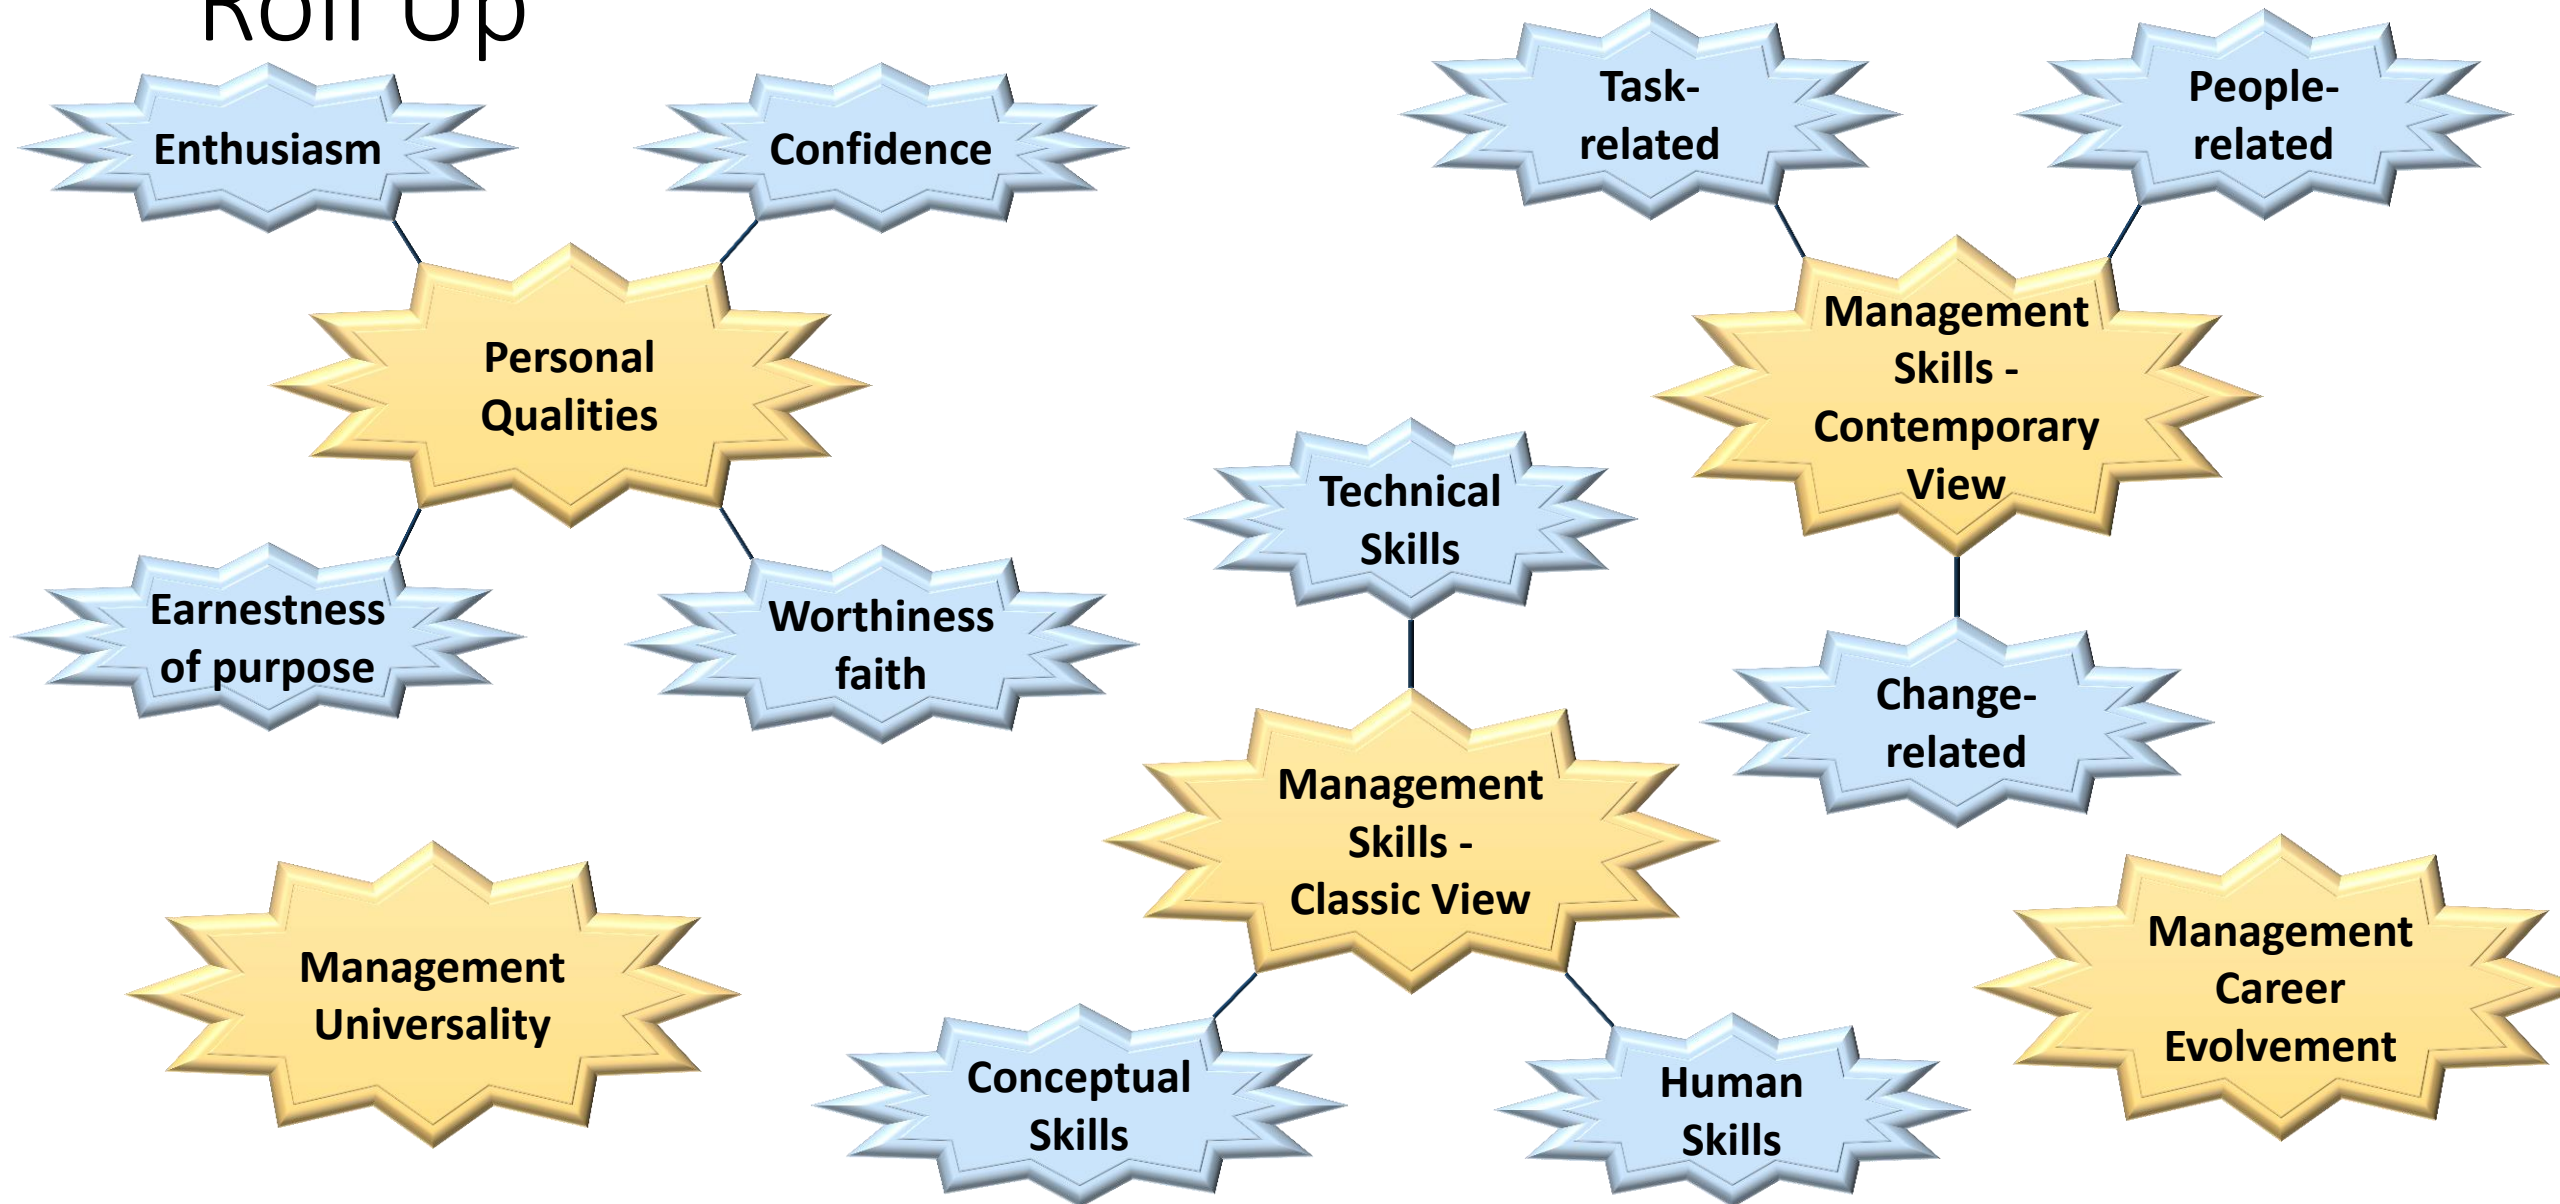

To increase the probability of being successful, managers should have competence in ...

- ... Clarifying roles: assigning tasks and explaining job responsibilities, task objectives, and performance expectations
- ... Monitoring operations: checking on the progress and quality of the work, and evaluating individual and unit performance
- ... Short-term planning: determining how to use personnel and resources to accomplish a task efficiently, and determining how to schedule and coordinate unit activities efficiently
- ... Consulting: checking with people before making decisions that affect them, encouraging participation in decision making, and using the ideas and suggestions of others
- ... Supporting: acting considerate, showing sympathy and support when someone is upset or anxious, and providing encouragement and support when there is a difficult, stressful task
- ... Recognizing: providing praise and recognition for effective performance, significant achievements, special contributions, and performance improvements
- ... Developing: providing coaching and advice, providing opportunities for skill development, and helping people learn how to improve their skills

Management Skills - Higher Success Chances

Skill	Function	Activity	Skill Category
Clarifying roles	Organizing/ Planning	Task/People	Technical/Human
Monitoring operations	Controlling	Task/Change	Technical
Short-term planning	Planning	Task	Conceptual
Consulting	Planning/ Influencing	People	Human/Conceptual
Supporting	Influencing	People	Human/Conceptual
Recognizing	Controlling	People	Technical/Human
Developing	Influencing	People	Human/Technical
